	Webber Wax, fair yielder .....	Light yellow	Ey.	S. R.	Y.	No S.	
K	White Wax, Burpee's Stringless, fine quality.....	White	M.	T. F.	Y.	No S.	

\* This is the only absolutely rust proof, early Wax Bean we ever grew in New York State. At blossoming time it sends up a tendrill a foot or more above the bush but this soon drops and disappears and the variety is practically a bush bean thereafter, and it gives a good crop of clean, handsome, healthy and perfectly stringless pods of fine flavor even in a season when most other sorts suffer from rust and anthracnose.
